About Me

I am a recent Electronics and Telecommunication graduate from PICT with hands-on experience in full-stack web and mobile development. Skilled in the MERN stack, Flutter and Dart, and experienced with AWS EC2 and Oracle VMs, I also bring strong proficiency in Python, HTML, CSS, Git, and SQL. I enjoy building reliable, scalable applications and thrive in collaborative environments that encourage learning and innovation.

Projects

Real Time Chat Application:

- Ideal for teams or communities needing secure, real-time communication with persistent chat history.
- Developed a full-stack real-time chat application using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Integrated Socket.IO for bi-directional communication to enable instant messaging between users.
- Implemented user authentication, chat room creation, and message persistence in MongoDB.
- Designed a responsive and intuitive front-end interface using React and Styled Components for seamless user experience.

World Without Hunger:

- This website was created as a aim to connect the people having excess food with the volunteers who can rather deliver the food to the needy.
- Developed using HTML,CSS, JavaScript and Django
- Implemented user roles for donors and NGOs, enabling secure registration, login, and distinct interactions for posting, viewing, and requesting food.
- Ensured a responsive and accessible user interface with clean front-end design for easy donor and NGO collaboration.

Skills

C++, JavaScript, Python, Node.js, React.js, MongoDB, SQL, Express.js, Flutter, Dart, Docker(basic), Linux(basic), Git, GitHub, Postman, HTML5, CSS

Education

Pune Institute of Computer Technology

B.E. Electronics and Telecommunication

July 2020-June 2025 | Pune, MH

Sanjay Ghodawat Junior College

HSC

April 2018-June 2020 | Atigre, MH

Languages

English, Marathi (Marāṭhī), Hindi
